EDUCATION

University of New Haven.

West Haven, CT, United States

Master of Science in Business Analytics 3.67/4

Jan 2024 - Dec 2025

Coursework:-Data Mining for Business Intelligence, SQL for Analytics, Database Management,Business Forecasting, Data Visualization using **Power BI**, Business Analytics Capstone

Osmania University

Hyderabad ,India

Bachelor of Business Administration 9.2/10

Jul 2019 - Jun 2022

Coursework:- Financial Management, Operations Management, Marketing Analytics, Management Information Systems

ACADEMIC PROJECTS

Employee Engagement & Customer Satisfaction Analytics (Capstone) — Kenexa / National Choice Bank

- Analyzed employee engagement (2,200+), customer satisfaction (14,000+), and branch performance data across 128 branches.
- Applied regression and clustering to identify drivers of service quality and customer loyalty ($R^2 \approx 0.81$).

Sales & Performance Dashboard — Power BI

- Designed interactive dashboards tracking sales, profitability, and regional trends using custom DAX measures.
- Modeled clean datasets to support business decision-making and stakeholder reporting.

Online Retail Database & Analytics

- Designed a relational database using ER diagrams and SQL joins; performed sales and customer analysis.
- Recreated analysis in R and KNIME to deliver clear, visual insights.

WORK EXPERIENCE

CA, United States

Product Analyst — ServiceNow(Contract)

Jul 2025 – Present

- Defined KPIs for activation, workflow completion, and feature engagement to support product releases.
- Analyzed onboarding and feature adoption using SQL and Python to identify user journey friction points.
- Conducted A/B test analysis on UI and workflow variants, measuring lift and statistical significance.
- Built Power BI dashboards tracking activation, retention, and time-to-value across releases.

Process Analyst — Tata Consultancy Services (TCS)

Hyderabad ,India

Client: Wolters Kluwer (USA) — State Tax Filings

Nov 2022 – Jan 2024

- Prepared, validated, and submitted U.S. state-level annual tax filings across multiple states using HCue and advanced Excel.
- Reconciled large financial and tax datasets, performed QA checks, and resolved exceptions to meet strict statutory deadlines.
- Coordinated with client and cross-functional stakeholders to ensure compliance, accuracy, and on-time submissions.

Client: BICS (Belgium) — Telecommunications Finance

- Managed end-to-end billing and financial disputes in a high-volume telecom environment using Salesforce.
- Built and maintained operational dashboards to track dispute volumes, resolution timelines, and KPIs.
- Collaborated with finance and operations teams to meet SLAs and improve reporting turnaround time.
